

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair should not be able to use public airways as a politocal for their own agenda. This is an example of the problem caused with consilidation of ownership in broadcast media.

Stations should play local produced shows and news with some sense of fair play and presentation of all views. Control of the media in this manner is a danger to democracy. Instead of guarding the rights of freedom on the airways recent rulings by your commission show little regard for the importance of a open and free press.

Please take some action to stop this misuse of power.
